Diploma in Fundamentals of Psychology

The course is designed with the aim to make psychology more accessible to students who might belong to a different academic background making the course an interdisciplinary gateway to psychology. It is a great opportunity for anyone who wishes to learn psychology in a structured way. The course can also be extremely beneficial to those working in the field of education and to acquire various leadership and mentoring skills.

The ultimate objective of this diploma is for the students to create a strong foundation of psychology which would enable them to pursue Post graduation in Psychology from Joshi Bedekar College as well as other open universities.

Following are the details of the diploma course:
